

Cherries So Ripe

Folk Song

$\text{♩} = 100$

Cher-ries so ripe and so round, the
best in the mar - ket are found,
on - ly a pen-ny a pound, who will buy?

The musical notation is written on three staves in a treble clef with a key signature of one flat (Bb) and a time signature of 8/8. The tempo is marked as quarter note = 100. The lyrics are written below the notes. The first staff contains the first line of the song, the second staff the second line, and the third staff the third line, ending with a double bar line.

Game

Dramatic Play: this is an example of a "Street Cry", where sellers would sing up and down the street as they tried to convince people to buy their wares. Pretend you are a cherry seller trying to convince your friends to buy your fresh, ripe cherries! Include pretend food if you have any. How many customers can you get?

Improv idea: what else could you sell at your market? Could you come up with a street cry for your new product?
