

# Cut The Cake

♩ = 100

Clap your hands to- geth - er, give your- self a shake,

Make a hap - py cir - cle, then you cut the cake.

## Game

All friends stand in a circle. One friend is chosen as the "knife". Circle friends sing the song as the "knife" walks around the outside of the circle to the beat of the song. Actions: clap to the beat, then "dance" when the verse says "give yourself a shake", hold hands on "make a happy circle". Immediately after you finish the verse, the knife stops and "cuts" the cake by softly "chopping" the joined hands of the two people she stopped by. Those two friends race in opposite directions around the outside of the circle, the first friend back is "safe", and the second friend back becomes the "knife". Start over with the new knife walking around the circle!
