

Dances IN THE Canebrakes

Florence Beatrice Price

Scavenger Hunt: hide the insects in a sensory bin, around the yard, or along a favorite nature walk. Listen to the piece while your child looks for the insects. Name them as you find them, and try moving like the insects.

Dance: Choose an insects to hold and move like as you to the piece. Can you hip like the cricket or wiggle like the worm?

Nature walk: make a list and take pictures of the insects, animals and plants you see on your walk. When you get home, listen to the piece as you draw or write about the things you saw on your walk!

Nature Crown

Instructions: print and cut out this Nature Crown. Punch holes at ends, attach a 12" string or ribbon through both holes. Fit and fasten to head with a bow or knot. Wear this crown while you listen to the piece *Dances in the Canebrakes*, play outside, go on a scavenger hunt, or pretend to be an insect! Have fun!
