

# Ladybug, Ladybug

## Finger Puppets

Print as many copies as needed, each page makes one puppet. Cut out, then layer the two sides wrong sides together. Glue the edge of the wrong side of one ladybug from one wingtip to the other, as pictured below. Leave the lowest black section open to create the puppet opening. Sing the song "Ladybug, Ladybug" as you fly your ladybug around, doing the actions in the song.

For personal & classroom use only.
