

Skin and Bones

Storytelling Set

How to play:

Print onto cardstock and cut out according to the instructions by each piece. Some pieces may have the music lit logo from the bottom of the page as part of their flap, which is fine as flaps will be glued down and not shown.

You may soft laminate pieces if desired, but hard lamination will probably not work.

Get a large piece of construction paper or cut poster board, and arrange and glue down items with flaps.

Sing as you play with the set, telling the story with the pieces. Happy singing!

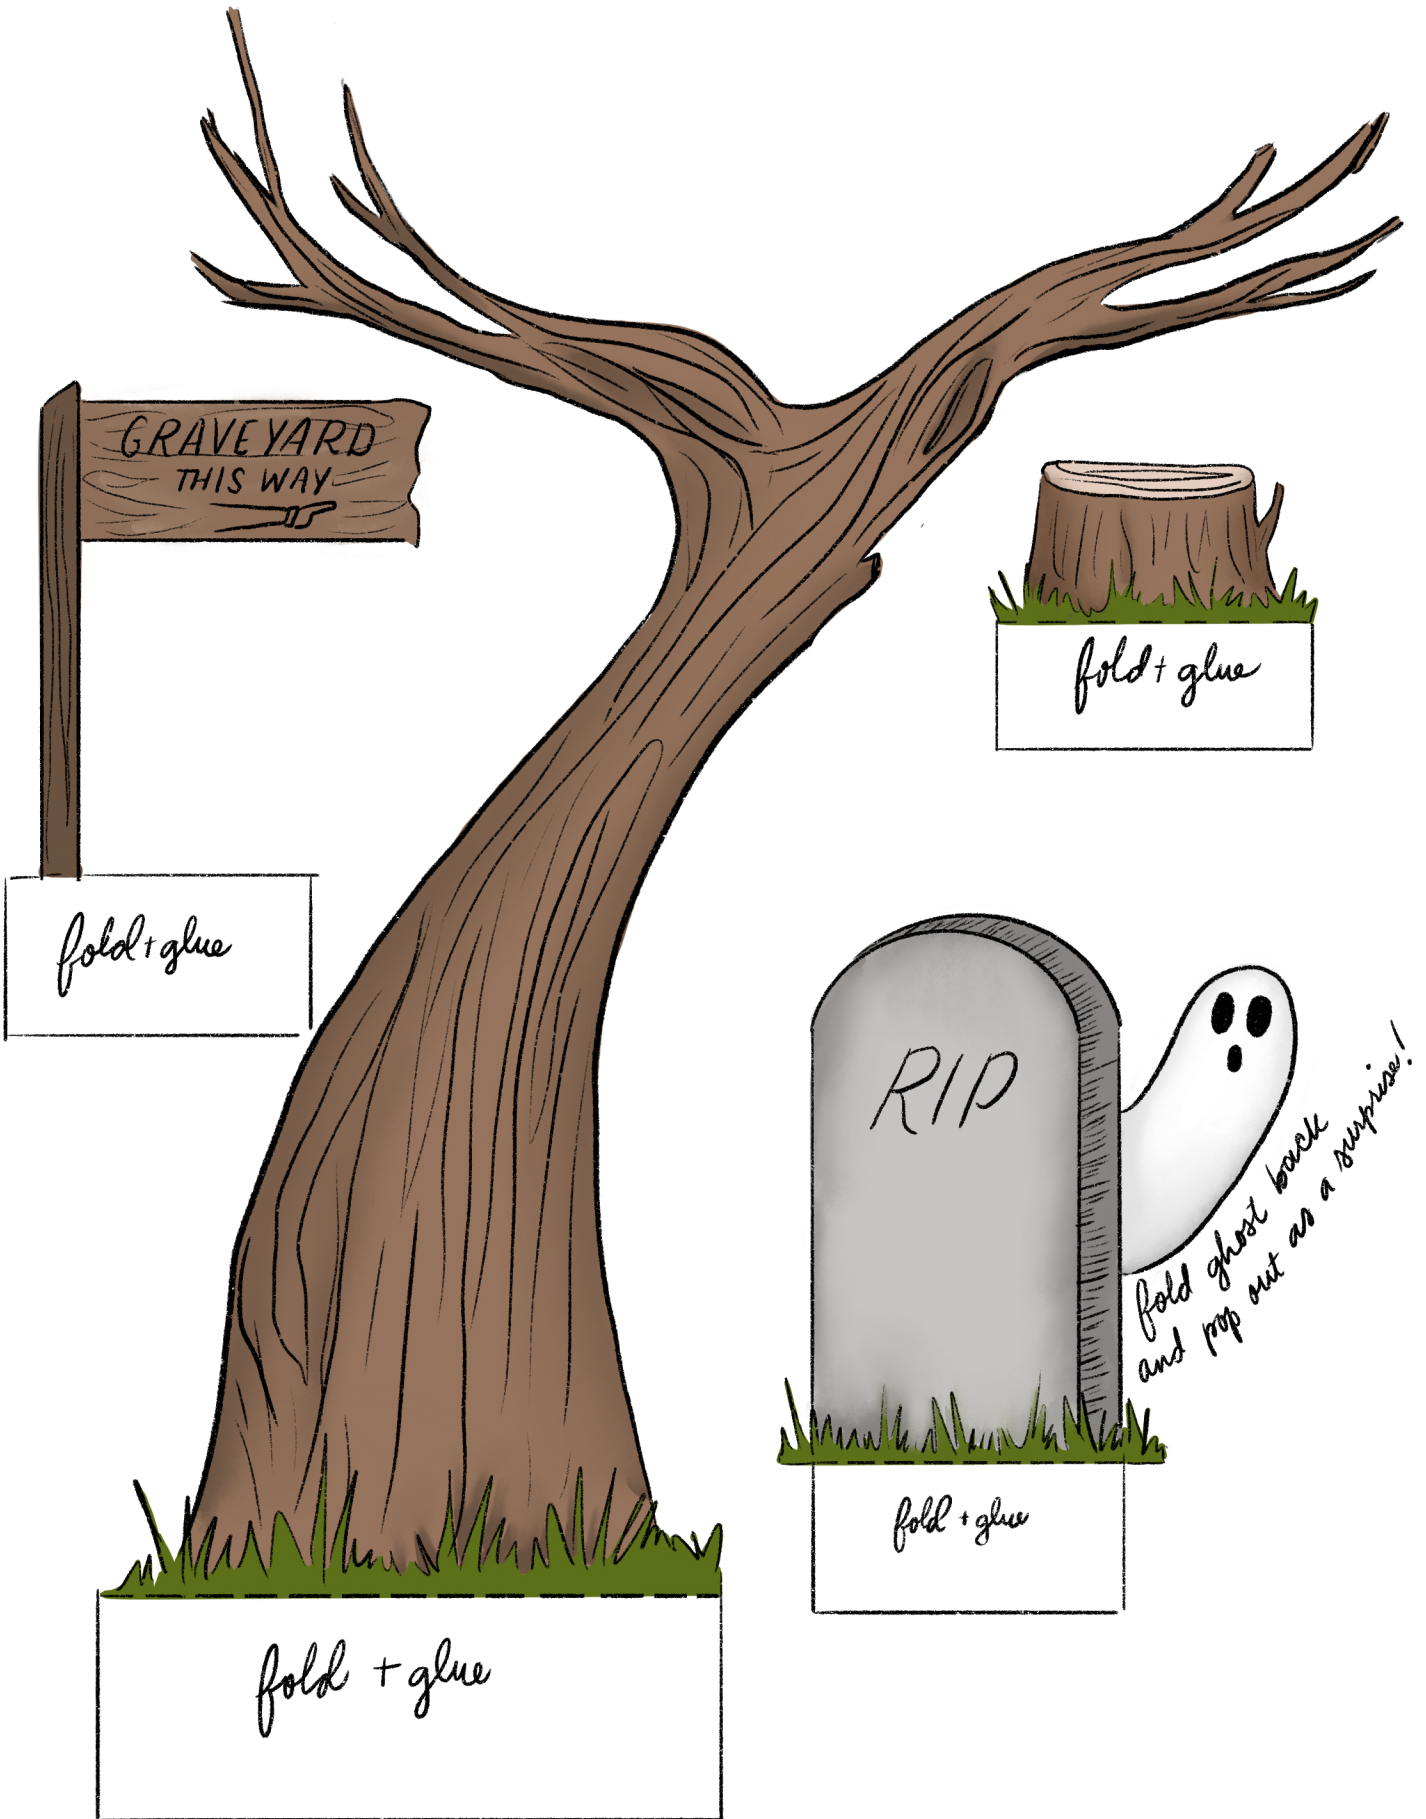

Fold in half + insert into paper doll base

cut slits + insert slip

fold + glue

For personal & classroom use only.
